Shangcheng(Aiden) Wu

Madison, WI | +1 608-896-5536 | aiden.wu@wisc.edu

EDUCATION

UNIVERSITY OF WISCONSIN - MADISON

B.S. IN COMPUTER SCIENCE & DATA SCIENCE

Madison, WI | Expected May 2028

GPA 4.0/4.0

Eligible for CPT/OPT (F-1 Visa)

SKILLS

Java • Python • R • HTML • CSS • C# • Azure OpenAI Service • Azure AI Document Intelligence • ML • Database • Data Visualization • Unity Engine

COURSEWORK & TRAINING

MODERN DATA VISUALIZATION:

Python for Data,

Data Visualization,

Databases,

Machine Learning Frameworks

MICROSOFT APPLIED SKILLS:

Generative AI Solutions with Azure OpenAI Service,

Intelligent Document Processing

UCLA GAME LAB:

C#,

Unity Engine

EXPERIENCE

MODERN DATA VISUALIZATION OF BIG DATA SEMINAR| GROUP LEADER & RESEARCHER

July 2023 – September 2023| Shanghai, China

- Led 3-person team exploring machine learning, Python frameworks, and databases
- Implementing SLT; MSTL; Matplotlib based on Python to speculate on the distance between the earth and the moon and the formation of tidal phenomena, thereby predicting the time and scale of the next tide
- Co-authored and published paper "Relationship Between Earth-Moon Distance and Tides" in Highlights in Science, Engineering and Technology (Volume 85, CSIC 2023 proceedings), DOI: 10.54097/xkxh4q35

CONTACTLESS DELIVERY SYSTEM | INITIATOR & DEVELOPER

September 2021– January 2023| Chongqing, China

- Designed a contactless delivery system based on Python, integrated with mobile app, face recognition, and IoT technology, enabling people to safely receive deliveries even during the COVID-19 epidemic
- Published research paper on CNKI detailing system design and implementation

MICROSOFT APPLIED SKILLS | PARTICIPANT

May 2024 – June 2024| Online

- Earned verifiable credentials in Generative AI (Azure OpenAI) and Intelligent Document Processing
- Built/tested NLP, document AI, and generative AI prototypes

PROJECTS

UCLA GAME DEVELOPMENT LAB| LEAD DEVELOPER

July 2024 – August 2024

- Built 2D game art, characters and scene resources based on Unity Engine, and use C# as the game programming language
- Built a 3D game world based on Unity Engine

ACTIVITIES

WORLD LAUREATES FORUM CLASS OF TOP SCIENTISTS| STUDENT REPRESENTATIVE

July 2022 – August 2022 | Online

- Communicated with Turing Award winner Joseph Sifakis and Nobel Physics winner Sheldon Lee Glashow (one of 5 China representatives)

AWARDS & HONORS

- USACO Silver Division Promotion (International) | 2024 January Contest
- Soong Ching Ling Award for Children's Invention Bronze (National) | August 2022
